Robert Willhite, Technical Director
Davis Paint Company
1311 Iron Street
North Kansas City, MO 64116
(816) 471-4447

Manufacturing Information

Our "Date Coding System" is done via a batch number that is tied to our fiscal year. Our fiscal year runs from November 1st to October 31st of the following calendar year. The batch number is a series of six (6) digits. The first digit represents the first year in a ten (10) year cycle – with a 1 representing the fiscal year that is divisible by 10; i.e. 1 _____ would represent our fiscal year 2000, 2010, etc.. The next two (2) digits represent the fiscal month that the batch was made; i.e. _ 01 ___ would represent our first fiscal month, which is November. The final three (3) digits represent the sequence within a month that the batch was made; i.e. ___ 001 would represent the first batch made in that month.

Compliance Information

Davis Paint Company is a long-standing manufacturer of quality coatings that meet or exceed regulatory requirements for consumer product safety. Davis Paint Co. has engaged in a testing program to assure conformance with standards, bans and other requirements issued by the Consumer Product Commission (CPSC). This certification applies to products manufactured on and after November 12, 2008, at North Kansas City, Missouri.

Third Party Laboratory Information

Not Applicable.
